**2024 HOUSEHOLD HAZARDOUS WASTE PROGRAM**

Since the majority of hazardous materials used in homes today can be either recycled, reused, or can be safely destroyed, Northfield Township Road District Highway Commissioner Tim Ruedter has again entered into an agreement with Leadbe Environmental Services to create a limited Household Hazardous Waste Program for our homeowners in Northfield Township to safely dispose of their unwanted household cleaning and maintenance products.

Our HHW program is a way in which we can offer homeowners of Northfield Township an alternative to disposal of the chemicals in a landfill. The Road District has made it simple. **From 9AM to 1PM on May 11th, 2024 and November 2nd, 2024** Northfield Township residents can drop off accepted household chemical waste at 237 Melvin Dr. in Northbrook. **We will be checking identification.**

The following items will be accepted: *antifreeze, cleaning products that are consumer commodities only, charcoal lighter fluid, driveway sealer (limit of 2 five gallon buckets), drain cleaners, paint thinners and gasoline in approved/original containers only, insecticides and herbicides.*

- No medical waste of any kind
- No propane cylinders of any size
- No items containing Mercury
- No pool or photographic chemicals
- No business/commercial waste accepted
- All items must be in original containers

At the collection site, Road District employees will help unload cars, segregating and repackaging the waste. The waste is prepared for shipment, ensuring all DOT and EPA regulations are met. The material is then transported to the Heritage Environmental Services facility for proper disposal/recycling.

For further information go to [www.northfieldtownship.com](http://www.northfieldtownship.com) and click on the Recycling button or call the Road District at 847-724-7055.
